

SUMMARY:-

- Your mind need not to be controlled , your mind needs to be liberated.
- The passion with which you look your lover , with same passion look the trees, look at the sky and look everything . You will become happy by your own.
- The main aspect of meditation is as you become more meditative you become the boss ,your mind becomes the slave and that is how it should be.
- If you apply to much logic to your life ,all life will be squeezed out of you.

- One should use information and logic as a drunkard would use lamppost only for support not for illumination.
- If you had not seen darkness in your life, you wouldn't know what light is.
