## **Summary:-**

- Coming back explains the fundamental of reincarnation presented in the timeless vedic text Bhagavad-Gita. The Gita has been studied for millenia by many of world's greatest thinker and since spiritual knowledge is eternally true and does not change with each new scientific theory ,it is still relevant today.
- Albert Szent lamented , " In my search for secret of life ,I ended up with atoms and electrons, which have no life at all. Somewhere along the line life has run out through my fingers, so in my old age , I am now retracing my steps.
- In vedas we find a maxim ,"*aham brahmasmi* ", I am not this material body. I am brahman ,spirit. That is self realization . According to Gita when one is self realized , he neither hankers nor lament ,he is equal to everyone- man ,animals and all living beings.
- Working senses are superior to dull matter ,mind is heigher than senses ,intelligence is still heigher than the mind and the soul is even heigher than the intelligence.
- Soul is present in the heart of living entity and it is source of all energy which maintain the body. The energy of soul is spread all over body and is known as consciousness.
- As a person puts the new garments, giving up old ones ,the soul accepts new material body ,giving up old

and useless ones.

- Sages af ancient India tells us that goal of human life is to escape from endless cycle of reincarnation.
